CERTIFICATE OF FACSIMILE TRANSMISSION UNDER 37 C.F.R. 1.8(a)

The undersigned hereby certifies that 10 pages including cover sheet are being facsimile transmitted to the Office of Initial Patent Examination's Filing Receipt Corrections, U.S. Patent and Trademark Office, at Fax number 703-746-9195, on the 12th day of April, 2005:

Request for Correction of Filing Receipt (2 pp.)
Copy of Filing Receipt with Corrections Noted (2 pp.)
Copy of Supplemental Application Data Sheet (2 pp.)
Copy of first page of WO 2003/087932 (1 pg.)
Copy of report from private PAIR (2 pp.)

Gary S. Engelson, Esq., Reg. No. 35,128

762392

This transmission contains confidential information intended for use only by the above-named recipient. Reading, discussing, distributing, or copying this message by anyone other than the named recipient, or his or her employees or agents, is strictly prohibited. If you have received this fax in error, please notify us immediately by telephone, and destroy the original message.

IF YOU DID NOT RECEIVE ALL OF THE PAGES OF THIS TRANSMISSION OR IF ANY OF THE PAGES ARE ILLEGIBLE, PLEASE CALL (617) 395-7000 IMMEDIATELY.

REQUEST FOR CORRECTION OF FILING RECEIPT

Sir:

This is a request for correction of the enclosed Official Filing Receipt dated March 23, 2005.

Through no fault of the Applicant, the Applicant's claim for this case of status as a Continuation-in-Part of application serial number 10/392,158, filed March 18, 2003, has been omitted from the Domestic Priority section of the Official Filing Receipt. Applicant respectfully requests correction of the domestic priority data, namely that **Continuation-in-Part-application serial number 10/392,158, filed March 18, 2003**, be added to the other priority information listed therein. In addition, the same omission appears in the electronic record accessible through private PAIR. Correction is requested.

In addition, through no fault of the Applicant, the 371 date of PCT/US03/11267 is incorrectly given in the Domestic Priority section of the Official Filing Receipt as March 14, 2003. **The correct 371 date is April 14, 2003.** Correction is requested.

Serial No.: 10/510,967
Docket No.: K0487-7006US
Page 2 of 2

In support of the above Request, a copy of the Supplemental Application Data Sheet, filed November 22, 2004, is enclosed, along with the first page of WO 2003/087932 A1, a recent report from private PAIR showing the continuity data recorded there, and the Official Filing Receipt with the correction noted.

It is respectfully requested that a Corrected Official Filing Receipt be issued reflecting the correction of the above-noted errors, and that the Office's electronic record also be corrected accordingly.

No fee is due. If there is a fee occasioned by this request, please charge the fee to Deposit Account 50/2762 (Ref. K0487-7006US).

Respectfully submitted,
George W. Kay, Applicant

FILING RECEIPT

OC000000015521443

Date Mailed: 03/23/2005

Receipt is acknowledged of this regular Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Filing Receipt Corrections, facsimile number 703-746-9195. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

Domestic Priority data as claimed by applicant

This application is a 371 of PCT/US03/11267 03/14/2003 *
which claims benefit of 60/372,323 04/12/2002
and claims benefit of 60/431,282 12/08/2002

(*)Data provided by applicant is not consistent with PTO records.

Foreign Applications

This application is a Continuation-in-Part of 10/392,158 filed 3/18/03.

Projected Publication Date: 06/30/2005

Non-Publication Request: No

Early Publication Request: No

** SMALL ENTITY **

Title

Radiation sensitive recording plate with orientation identifying marker, method of making, and of using same

Preliminary Class

378

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

For two-letter codes and other abbreviations, refer to the "Guid-
ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.(54) Title: A RADIATION SENSITIVE RECORDING PLATE WITH ORIENTATION IDENTIFYING MARKER, METHOD OF
MAKING, AND OF USING SAME

(57) Abstract: A radiation-recording plate (104) can be constructed and arranged to form an image upon exposure from both a front side and a back side. The plate can include a marker (201) detectable in the image (205) after exposure and indicative of which of the front side and the back side the plate is exposed from. The marker may comprise a medium opaque to the radiation coating a region that does not interfere with reading the image when the plate is exposed from either side, or may be a void in the sensitive layer of the plate. The marker may have horizontal asymmetry about a vertical axis relative to a normal image orientation, or the marker may have vertical asymmetry about a horizontal axis relative to a normal image orientation. The marker may further comprise a front side marker and a back side marker whose appearance in an image on the plate indicates exposure from the front side or the back side respectively. A method of identifying a side from which a radiation-recording plate has been exposed to radiation may comprise: incorporating in the plate (104), in a position that substantially does not interfere with an image area of the plate, a marker (201) whose appearance in the image identifies which side the plate is exposed from; exposing the plate to the radiation; and observing the image (205) for the identification of the side of the plate exposed. A method of making a radiation sensitive plate having at least one radiation sensitive layer may comprise: providing a film sensitive to the radiation on a first side of the radiation sensitive layer; and applying a suspension of a heavy metal in a binder to a region of a second side of the radiation sensitive layer.
